## Affiliations

### Technology Specialist

People's Voice On Climate  
Jan 2021 - Present

### Personal Trainer

Spring 2021 - Present

### Collegiate Athlete

University of Montana  
Aug 2013 – Dec 2017

### Professional Athlete

MSA Tigers (Cairo, Egypt)  
Feb 2019 – May 2019

## About Me

I'm a Full Stack Developer with 3 years of experience in building efficient and sustainable SAAS solutions. I have strong technical skills in JavaScript and Python. I value collaboration and writing clean and efficient code. I'm seeking to apply and expand my skills as a Full Stack Developer.

## Work History

### Full Stack Developer

Boston Consulting Group (BCG) Feb 2022 – Present

- <> Created interactive data visualizations with React and RESTful APIs.
- <> Implemented secure and high-performing server-side endpoints to optimize application functionality and user experience.
- <> Utilized SQL and ORM to perform efficient CRUD actions.
- <> Enforced infrastructure and code guidelines through development reviews.
- <> Participated in requirements gathering to solidify prerequisites and determine the best technical solution to meet business needs.

### Software Engineer

Fast Enterprises Aug 2019 - Oct 2020

- <> Coordinated with other engineers to evaluate and improve software and hardware interfaces.
- <> Reviewed project specifications and design technology solutions that met or exceeded performance expectations.
- <> Developed and deployed an electronic filing service that processed tax returns.
- <> Expertly troubleshooted and resolved technical issues across multiple projects.

### Data Analyst

Fantasy Moguls May 2018 – Jan 2019

- <> Produced monthly reports using advanced Excel spreadsheet functions.
- <> Developed an automated process to retrieve the most up-to-date rosters of sports organizations.
- <> Retrieve professional athletes' stats and computed their impact in game simulations using statistical analysis.
- <> Utilized data visualization tools to effectively communicate business insights.

### App Developer

University of Montana Jan 2017 – May 2017

- <> Designed and developed an Android app that collects student data through a user-friendly UI.
- <> Continuously monitored and improved app performance through various testing methods and strategies.
- <> Tested applications prior to final review to verify issue resolution.
- <> Led multiple scrum meetings and ensuring project timelines and goals are met.

## Education

### Management Information Systems

University of Montana Aug 2013 - Jan 2018
